Pets Deserve the Best

“Our cat is 17 years old with lower back and hip issues. After just one MagnaWave treatment his energy was renewed and he was back to playing like a kitten and jumping on the couch! He has weekly treatments and has never felt better!”

- Nancy Hughes

WHAT IS MAGNAWAVE FOR SMALL ANIMALS

We often say that when you purchase a MagnaWave machine you do not just benefit, your entire family benefits. This means that not only will you be using it, but so will your family members and pets! It is not uncommon for MagnaWave users to tell us that their animals sat with them while they were getting MagnaWaved. House pets – cats and dogs for the majority – tend to gravitate towards the magnetic fields used by their owners. MagnaWaving your pet regularly as part of a healthy lifestyle can optimize the level of health in your animal.

MAGNAWAVE FOR PETS HELPS:

- » Arthritis
- » Wounds
- » Circulatory Problems
- » Spinal Cord Problems
- » Seizure Disorders
- » Diabetes
- » Fractures
- » And More!
